

PRESS RELEASE

GLOBAL PANEL – RECEPTION

B e r l i n

Dear Sir/Madam,

The succession of events have institutionalized as an exclusive forum for decision-makers from economics, politics and society, where current economical and sociopolitical questions are made subject of discussion and further developed in Holland since the first *GLOBAL PANEL* in 1989. The list of the former speakers and guests is long and includes the names of the most important statesmen, business leaders and scientists of the last decades.

The promotional association **GLOBAL PANEL FOUNDATION e.V.** will constitute in Germany on 18th February 2003. Before, the Global Panel Executive Committees decided to move the headquarters from the Netherlands to Germany. For this reason *Global Panel* arranges a reception in the assembly room of the *International Club Berlin* (Thüringerallee 5-11, 14052 Berlin) on 18th February 2003 at 6 p.m. and you are happily invited.

As guests there will be expected besides ambassadors and representatives of the corps Dimplomatique, members of the Lower House of Parliament and former ministers from all parties and all countries as well as economy board members.

The formal and legal frame, for institutional activities in Germany, is defined with the *GLOBAL PANEL FOUNDATION e.V.*. The promotional association, which is a NGO, wants to give priority to mobilizing support for science, research and public policy as well as for international communication and cooperation.

Professor Ellenbogen, Chairman of *GLOBAL PANEL*: „With the creation of the *Global Panel Foundation in Germany and the appointment of our boards another important milestone in the history of Global Panel has been reached. I am pleased that our work is continuing because Germany has for some time presented itself with confidence in the new global order.*“

Please do not hesitate to contact Mr. **Kai G. Klinger** (phone number: +49 (0)6 21 – 59 50 7.50) for any further questions or details.
